Objective

AI & Data Science Engineer proficient in Java, Python, SQL, and Machine Learning, with hands-on experience building and deploying ML and deep learning models. Focused on applying data-driven problem-solving to deliver measurable outcomes.

Education

B. Tech - Artificial Intelligence and Data Science, V.S.B Engineering College (CGPA-7.51)	2023 – 2027 (karur)
12th, Velammal matric.hr.sec.school (Percentage-76.66)	2022 – 2023 (Madurai)
10th, Velammal matric.hr.sec.school (All pass)	2020 – 2021 (Madurai)

Skills

Technical Skills

- Java
- Python
- C
- SQL
- Git and GitHub
- Machine Learning and Deep Learning
- Computer Networks

Soft Skills

- Communication
- Problem-Solving
- Team Collaboration
- Time Management

Internship & Experience

Internship at Code Alpha

- Gained practical experience in Machine Learning, data preprocessing, model training, and evaluation.

National-level hackathon

- Participated in a national-level hackathon on Digital Fraud Detection, improving teamwork, analytical thinking, and problem-solving skills.

Project

Chilli Fruit Plant Disease Detection using CNN

- Developed a CNN-based image classification model to identify healthy and diseased chilli plants. This project improved knowledge in Python, Deep Learning, and Image Processing.

AI-Powered Credit Scoring System

- Developed ML models to classify loan applicants as creditworthy/ non-creditworthy.
- Achieved 84% Recall and 0.79 ROC-AUC using Random Forest with SMOTE-based imbalance handling and feature engineering.
